

Before and After

Find a waste space in your local area which you think has the potential to be developed into something else. Draw a picture of the site as it is now in the space provided. Make notes about any problems you think there may be with the site. Is it polluted in some way or dangerously unsafe for example?

	My notes
--	----------

Now consider what you would like to see on the site in the future. Would you build houses there? Would you turn it into a public park? Try to put in as much detail as possible and write a few notes about how you think your development would improve the waste space for everyone.
